LIQUID COATING

You need a universal device for liquid coating?

The automatic airspray gun TOPFINISH GA 1030 convinces with excellent atomizing properties and a high-quality spray pattern. The universal unit is particularly low-wear, which reduces spare part costs and halves maintenance costs. This enables process-safe coating in continuous operation.

INDUSTRIAL INTERNET OF THINGS

Intelligent visualization of coating systems

Successful IIoT solutions must allow several coating systems in a company to be easily linked. This also includes clear system visualization and intuitive user guidance. Read more about this topic in our current technical report (source: JOT, issue 2/2020, magazine archive).
