## Efficient technology for modern bicycle coating

Dear ladies and gentlemen,

the cycling season has begun. With increasingly spring-like temperatures, the demand for bikes is also rising and will probably reach a record high this year, as it did in 2020. Design naturally plays a major role - and so does an attractive and robust surface coating with liquid or powder paint. Read here how bicycle manufacturer Cycle Union successfully coats its products itself with WAGNER technology.

### Read the report

Besides the companies Deyacolor, Henkel, TIGER Coatings and Posterama, WAGNER is also a member of the cooperation "the sppot", which is all about innovative solutions for finishing bicycle frames and accessories.

#### More about the cooperation

## How you can recover solvents and save costs

With solvent distilling devices, WALTHER Spritz- und Lackiersysteme GmbH (member of the WAGNER Group) contributes to more sustainability. The reduction of VOC emissions can be summarized in three steps: Avoidance, reduction and regeneration. The economical use of solvents and their reuse protects the environment and your wallet.
