

Are you responsible for the repair, maintenance or daily operation of your WAGNER coating system?  
For optimal support, you can purchase our digital services individually - or combined as attractive service packages.

## Your benefits:

### Service App

#### Digital service on demand:

- Fast and reliable support via app by a qualified member of our service team
- Live audio & video transmission
- Transparent documentation of the service call

### COATIFY

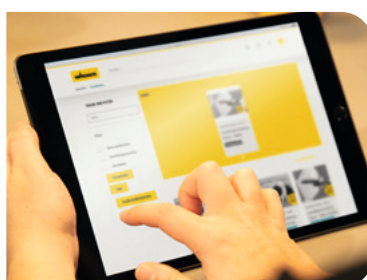

#### Web-based information & management platform:

- Intelligent visualization of relevant production data: Complete overview of your system from anywhere and at any time
- Increase your productivity and quality through predictive service measures
- Choice between complete package and entry-level package COATIFY.light with reduced scope of functions

### Online Academy

#### Extensive online training offer:

- Wide range of online live seminars, step-by-step instructions and overview incl. booking option of Academy training courses
- Independent further training in your desired subject area
- Different functional scopes depending on your needs (Online Academy.light, Online Academy, Online Academy.premium)

## Choose the service package that's right for you!

We offer four service packages, each of which is suitable for a variety of requirements.

We can also create a customized offer to meet your specific needs.
