

SCOPE OF DELIVERING PC HP 30

PLASTCOAT HP 30 SPRAYPACK 2388301

Basic unit, PC HP 30	2383783
HP hose Ø19, 10 m	2390763
H hose whip DN10, 2.5 m	2390762
Airless gun AG 19, 25 MPa, G-thread 3/8", incl. TradeTip 3 nozzle holder	2341127
TradeTip 3 443 nozzle	553443
PlastGuard longlasting pump protector	2399960

EMULSION SET PLASTCOAT HP 30 2400684

Basic unit, PC HP 30	-
Airless gun Vector Pro, 1/4", incl. TradeTip 3 nozzle holder, with 4-finger trigger	538040
HP hose DN10, max. 25 MPa, NPSM 3/8", 15 m	2336583
HEA ProTip nozzle 517	554517
Adapter FM 1/2BSPP-3/8NPSM	2332623
Adapter FM 1/4 NPSM-3/8NPSM	179732

INNOVATION SINCE 1947

Perfect surfaces and added value are our passion. Bringing colour, protection and function to surfaces is our mission. We dedicate all of our technical expertise to your objects and products, and support you with personal service. Using innovative technologies and highly efficient, reliable and user-friendly solutions, we are constantly setting new standards in surface technology.

wagner-group.com/3plus2

Anyone purchasing a WAGNER paint spraying unit automatically receives a three-year manufacturer's warranty. But we can do more: If you register online, you can extend this warranty for a further two years, free of charge!

HEA TECHNOLOGY

HEA stands for High Efficiency Airless, the innovative nozzle technology revolutionising airless spraying. HEA tips allow the pressure of the spray device to be reduced and provide exceptional spray results while working in a low pressure range (ideally at 80 - 140 bar). The tips can be used with all TradeTip 3 tip holders and WAGNER devices.

Paint application

wagner-group.com/hea-protip

Standard airless technology

Paint application

PLASTCOAT HP 30 - THE BEST COMBINED

With PlastCoat HP 30, virtually any material viscosity and quality can be processed with low wear, downtime and repair outlay, from paint application to high-viscosity fillers, and always with an excellent standard of performance.

EASY TO HANDLE:

The user-friendly operating concept for regulating the rotor and stator allows problem-free use – even for beginners. The ergonomic airless gun and the high pressure hose guarantee a high level of operating comfort when applying material.

MAXIMUM PERFORMANCE:

PlastCoat HP 30 convinces with a delivery rate of > 10 kg / min. In addition, the spraying pressure can be freely regulated continuously (40-120 bar).

RELIABLE TECHNOLOGY:

The low wear and low maintenance spiral pump is characterized by its robust and proven technology. The airless spraying technology also means that high-quality surfaces and fast working speeds can be achieved.

VERSATILE OPERATION:

The spiral pump can be easily switched to emulsion applications thanks to HEA technology.

QUIET BUT POWERFUL OUTPUT:

PlastCoat HP 30 allows quiet and ergonomic airless spraying with a working pressure of up to 120 bar without an additional compressor.

QUICK HELP

ACCESSORIES

HOSES

HP hose Ø19, 10m	2390763
HP hose whip DN10, 2.5m	2390762
HP hose DN10, max. 25 MPa, NPSM 3/8", 15 m	2336583

SPRAY GUNS AND NOZZLES

Airless gun AG 19, 25 MPa, G-thread 3/8", incl. TradeTip 3 nozzle holder	2341127
Airless gun Vector Pro, 1/4", incl. TradeTip 3 nozzle holder, with 4-finger trigger	538040
TradeTip 3 nozzles	0553XXX
HEA ProTip nozzles	0554XXX
Nozzle holder, G-thread 7/8", for TradeTip 3 nozzles	0289390

OTHER

Nozzle extension, 30 cm, G-thread, with holder, without nozzle	556075
Nozzle extension, 60 cm, G-thread, with holder, without nozzle	556074
Cleaning ball DN12	508619
Cleaning ball DN19	2400214
Cover for material hopper	508281
Press table	2389048
PlastGuard pump protector	2399959

PLASTCOAT HP 30

Weight	72 kg
Motor output	2.3 kW
Voltage	230 V / 50 Hz
Max. operating pressure	120 bar, 12 MPa
Max. delivery rate (airless emulsion spray filler)	> 10 kg / min
Max. feed height	20 m
Max. delivery radius	22.5 m
Max. grain size*	0.3 mm
Article number	
*Airless fillers, emulsion fillers	

More about PlastCoat HP 30 online:
wagner-group.com/pchp30

With the airless gun AG 19, even high-viscosity materials can be processed without any problems.

A colour-coordinated pressure gauge allows perfect control of the pressure in coordination with the material being processed.

Can easily be converted for emulsion applications. With the emulsion kit comprising a 15 m hose (DN 10) and the Vector Pro gun with HEA nozzle 517.

Plastic material hopper: Easy to clean and with a capacity of 50 litres. Cover for the material hopper available separately as an accessory (Art. No. 2400 030).

With a height of 62 cm, the device can easily be filled with material.

Easy control: Thanks to the user friendly control panel.

Quiet and comfortable airless spraying without additional compressor with up to 120 bar working pressure.

The large, pneumatic tyres ensure mobility on any construction site.

PRESS TABLE

Our handy helper for the fast processing of bagged goods is available separately as an accessory (Art. No. 2389 048).

SPIRAL PUMP

Do you appreciate the machine-based application of material, especially for harder tasks? Then a spiral pump from WAGNER is exactly the strong power packet you need for your construction sites. The robust, powerful performance of a spiral pump is delivered by a really simple rotor-stator function that WAGNER has been successfully using on the market for decades.

1. EASY TO OPERATE:

The simple, user-friendly operating concept for controlling the rotor and stator guarantees problem-free use, even for beginners.

2. FAST CLEANING:

WAGNER spiral pumps can be quickly disassembled for cleaning and maintenance and reassembled again thanks to the simple stator design, including directly on the construction site. This is made especially easy on the WAGNER PlastCoat 1030 by the automatic stator withdrawal. The material-carrying parts are also made from special materials which are easy to clean.

3. LONG SERVICE LIFE:

WAGNER spiral pumps are robust and easy to use. They are especially low-wear and low-maintenance, and are considerably quieter in operation than conventional piston pumps.

More about the technology:
wagner-group.com/technologies

RECOMMENDED USE

MATERIALS:

Emulsion and latex paints, adhesives, sealants

Structural waterproofing, bituminous coatings

Exterior paints, roof coatings, floor coatings, textured paint

Filler

OBJECT SIZE:

For different project sizes

Filler application on construction sites

Paint applications on walls

SPRAYGUIDES

Here you will find answers on how to set up your unit to match the material you are using, and which paints and lacquers can be processed most effectively with your WAGNER unit.
